

UNICON

Scout MSP

Set course for growth with Managed Services

Take off with MSP

Scout MSP is designed specifically for the needs of MSPs - whether you're just starting out with managed services or looking to grow your business. Extend your VDI and DaaS product range by including a lean operating system and efficient device management. Using Scout MSP makes it easy and intuitive for MSP partners to manage, scale and secure their growing heterogeneous customer infrastructure and deliver a consistent user experience to employees across all devices. Scout MSP is how you maximize technician efficiency, minimize training needs, and drive your MSP growth. Access everything you need for easy-to-manage end-user computing on Unicon's fast, clear, concise, and user-friendly management platform.

One device – one price per month

License Model | Details

Predictable costs & easy licensing

Gain complete overview and control over your costs. Benefit from the Scout MSP package consisting of:

- ✓ License for eLux & Scout
- ✓ Software Maintenance for eLux & Scout for software updates
- ✓ Fluendo system-wide codec pack

Combine flex with commit to optimize your costs and only pay for the number of devices you manage.

Commit

Number of managed devices for a given period

- ✓ Planning certainty
- ✓ Discounted price
- ✓ Possible adjustment of quantity & price after 12 months
- ✓ Payable annually in advance
- ✓ Increase profitability with volume-based discounts

Flex

Monthly adjustment of the number of managed devices

- ✓ Pay-per-use
- ✓ Easy reporting of managed devices
- ✓ Monthly billing

Your advantages

Future-proof your business and benefit from Scout MSP.

Become a Trusted Advisor

Provide your customers with more value by taking the management of end-user computing off their hands.

Flexible & scalable

No matter the size of your customer's business – with Scout MSP you can provide DaaS and VDI environments to international corporations as well as to small and medium-sized enterprises.

Solve problems efficiently

Scout MSP stands for fast provision, detailed control, and easy management of distributed endpoints. All tasks are significantly simplified and expedited, saving MSPs both time and money.

Seamless protection for your customers

Scout MSP provides administrators with everything they need: easy, intuitive monitoring, configuring, and backup of countless distributed endpoints.

Cost Optimization & Business Expansion

Expand your range of services and business opportunities with Scout MSP. Benefit from attractive profit margins, easy licensing, and customized technical and marketing support.

Optimal user experience

Our close partnerships with leading technology companies in virtualization, UC&C, OEM, multimedia, and security help increase your customers' resilience and user experience.

Automated reporting

Scout Server

Automated transmission of managed devices in total as well as per tenant
